

# Student Educational Experience Questionnaire (SEEQ)

Instructor Report

Enrollment numbers are acquired before the end of the semester and may differ from the final figure.

**Reporting Date:** 1/22/2024 5:27 PM      **Semester:** 2023/24 FA  
**Instructor ID:** yfq5054      **Instructor:** Yi Qiu  
**Term:** 2238      **Session:** 1      **Campus:** UP      **College:** SC

| Course ID    | Course Title             | Section | Instruction Mode | Students | Responses | Response Rate |
|--------------|--------------------------|---------|------------------|----------|-----------|---------------|
| 22381--22135 | PHYS212- Elect. and Mag. | 015L    | P                | 37       | 7         | 18.9%         |

## University Questions

**A1:** In a few sentences, please provide feedback on your learning experience in this course. Consider the assignments and feedback you received, materials, learning activities and interactions with peers, your interactions with the instructor and other aspects related to your learning experience that you want to mention.

|  |
|--|
| The lab was good. The TAs help with questions and my peers are especially helpful. We always finished the labs on time.  |
| Helpful and understanding.   |
| Yi was the best TA I ever had for this course. He really cared about the students, was welcoming/helpful during class, and helped me pass the course. Without him, I would've done a lot worse in the course. The labs, on the other hand, were either pretty straightforward or completely irrelevant to the previous lecture's material. |
| Overall, the labs were well run  |
| Lab was not always the most helpful when it came to understanding topics. Sometimes I would leave lab with only more questions than when I entered, but lab was very good for helping me visualize problems.   |

|            |  | Strongly Disagree |   |   |   |   | Strongly Agree |      |        |  |  |
|------------|--|-------------------|---|---|---|---|----------------|------|--------|--|--|
|            |  | 1                 | 2 | 3 | 4 | 5 | N              | Mode | Median |  |  |
| <b>A2</b>  | The overall structure of the course (content and materials, assignments, activities) promoted a meaningful learning experience for me. | -                 | - | 2 | 2 | 1 | 5              | *    | 4      |  |  |
| <b>A3a</b> | The instructor created a welcoming and inclusive environment.  | -                 | - | - | 3 | 2 | 5              | 4    | 4      |  |  |

\* *Multimodal*

**A3b:** In the space provided, please provide an explanation for your rating in the previous question.

|   |
|---|
| The environment is welcoming, I just think that there can be more done to answer questions for the lab content.   |
| The TA's were nice and welcoming, but the lab activity itself was hard to get anything out of as sometimes the TA's didn't know the answers themselves or didn't care to explain (Yi is an exception).  |
| Could ask any question related to the lab and be answered directly.   |
| I appreciated being able to talk to the TAs during recitations.   |
| Yi always said "Hi" to me when I walked into lab at 8am which was nice. He was also very helpful when answering questions. I always tried to ask him my questions because his explanations were the most helpful, and he would stick with you until you understood the topic. |

**A4:** If your course required materials, which materials or resources enhanced your learning? How?

|  |
|--|
| The textbook is helpful.                                     |
| The textbook was the most useful tool for me in this course. |
| The provided equation sheet helped.                          |

**A5:** What are the most important things you learned in this course?

|   |
|---|
| Electricity, Magnetism, and basic circuit analysis.   |
| Learning to visualize what all is happening was the best thing I learned in lab. It helped me understand problems better on homework and exams. |
| I learned circuit assembly and excel graphs.  |

**A6:** Do you have any recommendations for this course?

|   |
|---|
| No  |
| For lab assignments particularly, less use of excel, it's very difficult to work with. Overall, the labs were well run and managed. |

None at this time.
